

ERP LUCCA

Green architecture in energy class "A" with the Platform-Frame system

Using the **Platform-Frame** construction system, which is ideal for **multi-storey timber buildings**, Sistem Costruzioni has created a block containing nine apartments on two storeys plus ground floor in record time, handing over the apartments to **ERP in Lucca** on a turnkey basis.

An innovative solution to social housing requirements

The building was constructed using the **Casa Natura system**, the construction method developed by Sistem Costruzioni that is able to guarantee excellent **fire resistance** and **antiseismic properties**, plus **high levels of thermal insulation and static load resistance**.
